

How to study for Exam One

1. Find your old quizzes (2-8). Fix everything you got wrong and make sure you remember how to do all the problems.
2. Do the Review Problems (2 pages each) for Chapters 2-5. Ask questions about anything you don't understand. (This is your homework!)
3. If it will help you study, fill out the Key Terms and Concepts at the beginning of each unit. Ask questions about anything you don't understand.
4. Go over the all your homework from Chapters 2-5. Fix anything you got wrong and understand your mistakes.
