

Alternate Clinical Activities- Important Times

***Always check out with instructor before leaving the pedi ward and check back in when returning to the ward. *Your instructor needs to know where you are!

1. PICU: Mon *or* Tues 0655-1245 (Pedi ward first)
(return to ward by 1245)
2. Short Stay: Mon *or* Tues 0800-1245 (Pedi ward first)
(return to ward by 1245)
3. Chandler Tripp School: Mon *or* Tues 0830-1230 (Pedi ward first)
(return to ward by 1245)

For these alternate clinical activities, you will be assigned the morning of clinical, based on patient availability. Please read over the Alternate Clinical Activities info sheets. Next, until you leave the unit, help your peers with medication math calculations. (*all medications need to be checked by another student!*) Do the earliest meds first. Please listen to morning hand-off report with one of your peers after the morning huddle.

When you return to the ward, check in with your instructor/ PRN, and then ask who needs help to complete their day. You can assist the group, set up chairs for post-conference, or grab a quick bite/break before post-conference starts. Be prepared to share your experiences with the group.
