WEEK 1

antianemics: 431 - 436
asthma and bronchodilators: 587 – 592; 594 - 596
vaccinations: 441 – 444; 449 - 451
expectorants and mucolytics: 577 - 581
pharmacology during pregnancy and lactation: 77 - 80
pharmacology of the pediatric patient: 80 - 84
childhood immunization schedule (446 - table)

WEEK 2

venipuncture: video will be shown in class at later date

WEEK 3

antineoplastics: 543 – 546; 547 – 556 (skip tables); 560 - 563
antiemetics: 626 - 629
non-opioid and opioid analgesics: pain 223 - 224
 opioids 224 - 230
 non-opioids 231 - 236
vitamins: 636 – 641; 643 - 644

WEEK 4

antidiarrheals: 620 - 622
laxatives: 618 - 620
antacids: 609 - 612

WEEK 5

labor and delivery meds: 707 – 709; 710 - 711
anti-inflammatory: 460 – 464; 467 - 469
glucocorticoids: 464 - 465

WEEK 7

blood/plasma replacement products: see relevant pages in Medical-Surgical Nursing by Lewis

WEEK 8

antiinfectives:

general 473 - 476	macrolides 483 - 484
sulfonamides 487 - 489	aminoglycosides 484 - 486
penicillins 478 - 480	fluoroquinolones (quinolones) 486 - 487
cephalosporins 480 - 481	miscellaneous 489 - 493
tetracyclines 481 - 483	

antiepileptics: 172 – 175; 176 – 184 (skip tables)

sedatives/hypnotics: 111; 160

epidural anaesthesia: 244 - 245

WEEK 9

anticholinergics: 138 - 142

dysrhythmics: general 390 - 392

cardioglycosides 394 - 401

total parenteral nutrition : 647 - 650

WEEK 10

cardiotonics: (covered with dysrhythmics)

diuretics: 302 - 310

antihypertensives: general 329 – 334; 340 - 341

diuretics (above)

ACE inhibitors 336 - 338

calcium channel blockers 338 - 339

adrenergic agents 342 - 344

vasodilators 344 - 345
